

Lone Star Rally of Canterbury 2020

In association with Joe's Garage

Media Release 24 June 2019 - Lone Star Rally of Canterbury 2020

Feed back from competitors, spectators, local residents and Councils has been over whelmingly positive in the wake of the 2019 rally held recently. Consequently, the organising committee has decided that the 2020 edition of the rally will take a very similar format i.e. a mix of main arterial forest roads and North Canterbury public roads. At this stage public roads may be run in the opposite direction and will include Sinclair Rd which was used for touring only this year. Stage 1 will be a repeat of the planned SS1 from this year (before it was shortened due to the weather) and the last stage will again be the power stage and a longer version of this year's last stage. All stages will probably be run in daylight for a change. Work has already started on a proposed itinerary. As usual the ceremonial start and finish will be at Lone Star Manchester St as will the prize giving. Obviously the date is yet to be confirmed but we would anticipate it being at Queen's Birthday weekend as in the past. We have a tentative itinerary already created which we will release soon.

Leigh Marston

Chairman

On behalf of the Lone Star Rally of Canterbury Organising Committee
